

Set Speech Free

Every speech activity focuses on 11 target sounds AND language skills!

Every speech activity comes with colorful illustrations AND a "High Frequency Speech Activity Card" which gives you a COMPLETE therapy plan that is ready to go!

Every speech activity is very affordable!

Every speech activity can be used with non-verbal children, early language skills, children with Autism Spectrum Disorder, articulation disorders and more!

Never have a bored child again!

Our affordable, large variety of activities provide a different therapy experience every week! Each session will feel fresh, new and exciting!

8 activities provide 1-month of therapy!
Only 2 activities a week keep children motivated and interested!

TESTIMONIALS

As a former educator and school board member, I have been exposed to numerous learning methods-some successful and some not. I would qualify "The Speech Solution" as the most successful program I have ever encountered. I have never seen a program like this one-it went far beyond my expectations.

--Kathleen Gair Levin
Retired Educator, California

My students really like these activities and materials in "The Speech Solution" because the illustrations are colorful and interesting to them. The instructions are easy to follow and the speech card is a great resource and easily adaptable for students working on different target sounds. I really recommend this program to anyone looking for time-saving activities with a variety of ideas.

--Wendy Meyer M.S. CCC-SLP
Speech-Language Pathologist

I began witnessing the formation of "The Speech Solution" over 20 years ago. This program is simple, to the point and successful! A child will be fluent and articulate within months after participating in "The Speech Solution" program.

The "One-minute Articulation" mobile app gets more responses from a child in a minute than they usually give in an entire speech therapy session!

APP Features:

21 sounds

216 Rounds

Word, Phrase, Sentence Levels

Practice & Test Mode

Easy data acquisition

Works on Speed & Accuracy

Simple & Easy to Use

Unlimited profiles available

PERFECT for Parents to use for Home Practice!

60+ practices in 1 minute!

Parents LOVE this APP because it is
FAST & EFFECTIVE!

Everyone can find a minute and that is all it takes to see dramatic results in a child!

It's about time!

The Speech Solution was developed to help speech language pathologists save time.

Free up your time,
and make the most of a child's time.

The Speech Solution program provides the following:

- **A large variety of ready-made activities**
- **ONE Prep for ALL students**
- **Complete Therapy Plans -ready to go!**
- **Activities that target 11 sounds AND language skills**
- **An APP that helps a child practice 60+ sounds in 1-minute**

High-Frequency, Short Duration

A High Frequency Short Duration service delivery model is designed to elicit a high number of responses from a child in a short amount of time.

The Speech Solution uses the High Frequency, Short Duration model by providing a *High Frequency Speech Activity Card* which focuses on 11 different target sounds, each inserted into their own sentences giving a child anywhere from 9-20 target sound practices in each turn. Every target sentence correlates with a fun, interactive, purposeful activity making every minute count!

Take Flight!

- Drastically reduce prep-time for speech pathologists, teachers and parents
- Make certain that noticeable results can be seen quickly by using "High Frequency Short Duration" techniques
- Keep children motivated, focused, and interested in progressing
- Reduce the stress of grouping children with different goals and skill levels
- Develop a mobile app that eliminates frivolous activities and just "gets to work" on the problem by using "High Frequency Short Duration" techniques
- Be considered the BEST place to shop for quality, fun, hands on speech activities and a mobile app that can be easily used by anyone wanting to improve a child's speech
